

Remote Volunteering-

Making Winter Care Kits for Pathways of Hope

ABOUT THIS VIRTUAL PROJECT:

During the coronavirus pandemic volunteers are needed to assemble winter care kits and you can help from the safety of your own home as **Remote Volunteers**. The winter care kits you make will be distributed to the families living in Pathways of Hope's shelters and families picking up food. We currently have 60 people in our shelters, and up to 50 households visiting the HUB in a day. As you can see, we assist a lot of people. This project can be a family or group project. Thank you so much for your help!

ABOUT PATHWAYS OF HOPE:

Pathways of Hope is a nonprofit organization that serves families and individuals throughout North Orange County. For over 45 years Pathways of Hope has been providing food, shelter and support and prevention services to the hungry, homeless, and marginalized through assistance of local congregations, volunteers, businesses and grants from foundations and government agencies.

The Pathways of Hope HUB of Hope offers emergency food and hygiene items to homeless and low-income families and individuals as well as a walk-up center for individuals and families seeking housing assistance.
